Salem flips a music FM in eastern Washington State from rhythmic AC to "Everything That Rocks", says the Washington State Board of Radio-Info.com. The former "Groove 93.7" KGSG is a Class A licensed to Pasco, and it's become "The Rockin' River." The station is in the Richland-Kennewick-Pasco market, and it lasted about a year and a half as rhythmic AC. More on the Washington State Board of Radio-Info.com.

Vic Michael's at it again - Two 15-kw daytime AMs in Colorado Springs sell for a combined \$400,000. Those are KCMN, Colorado Springs at 1530 and KCBR, Monument at 1040. They've both increased daytime power over the years, with KCMN upgrading from 1-kw to 3-kw to an eventual 15,000 watts. Seller is DJR Broadcasting - Don Crawford, Junior, who learned the biz growing up around his dad. The buyer is Kona Coast Radio, which is the always-active Vic Michael, working out of Loveland, CO. Vic's licenses and construction permits range from Colorado to Kansas, Wyoming and South Dakota, and he also holds interests (through Cedar Cove Broadcasting) in a raft of non-commercial construction permits won in FCC auctions. Vic - as Laramie Mountain Broadcasting (KUSZ, Laramie WY/93.9), Advanced Modulation Broadcasting (KWLW, Keystone, CO at 1320), Michael Radio Group (KRKI, Keystone SD at 99.5) and Kimball Radio LLC (KYOY, Hillsdale WY at 92.3) - is about to have a whole bunch of stations. Back to the sale of KCMN and KCBR in Colorado Springs - the brokers are Mike Bergner for seller DJR and Gene Ferry for buyer Vic Michael.

Anita Marks leaves as one of the rare female afternoon co-hosts at a major-market sports station, apparently headed for other things, like national TV. She and Scott Garceau have fronted PM drive on CBS Radio's "Fan 105.7" WJZ-FM in Baltimore and were also cable-cast on the regional MASN channel. Now Anita tells the Washington Examiner she and CBS couldn't agree on terms, after a four-year run at the
